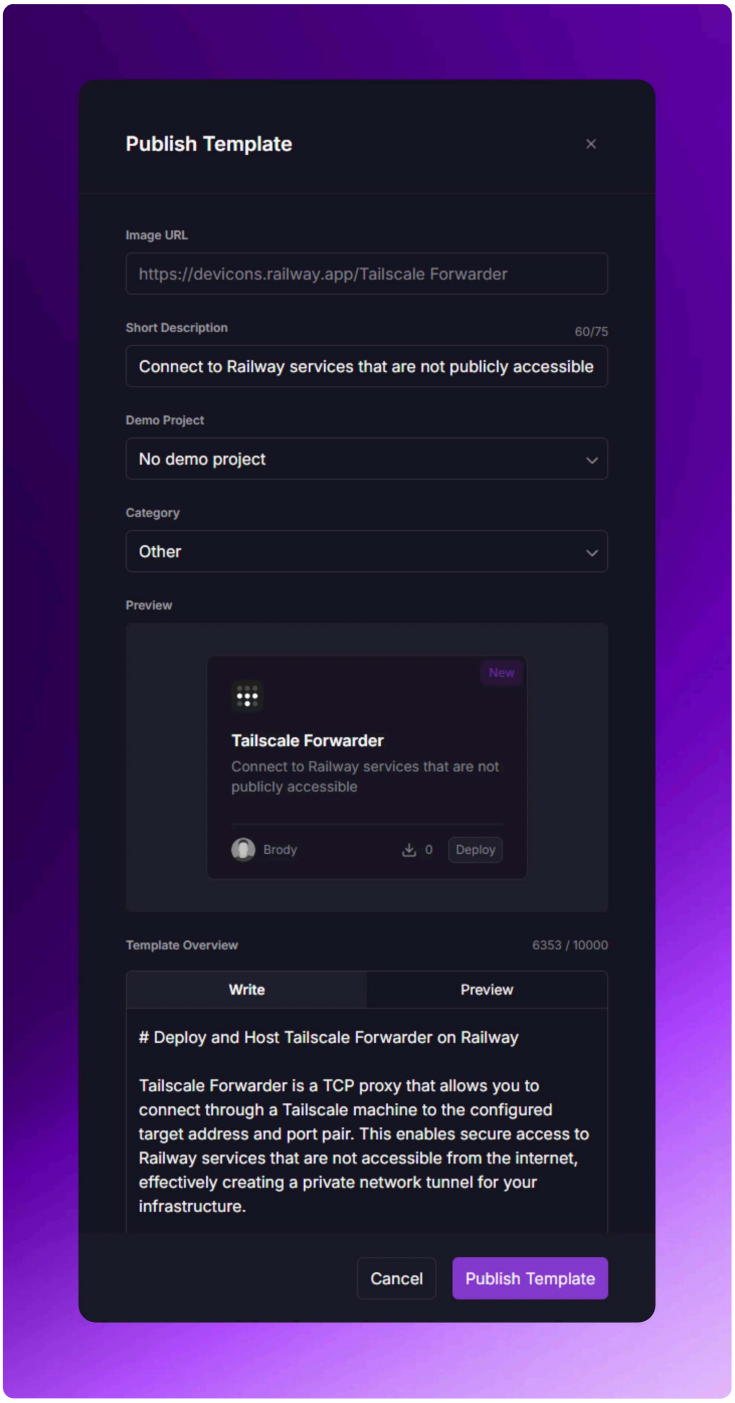
Publish and Share Templates

Copy as Markdown

Once you create a template, you have the option to publish it. Publishing a template will add it to our template marketplace for other users to deploy.

Publishing a Template

After you create your template, simply click the publish button and fill out the form to publish your template.



On This Page

Publishing a Template
Sharing your Templates
Deploy on Railway Button
Markdown
HTML
Examples
Kickback Program
Template Verification

You can always publish your template by going to the Templates page in your Workspace settings and choose `Publish` next to the template you'd like to publish.

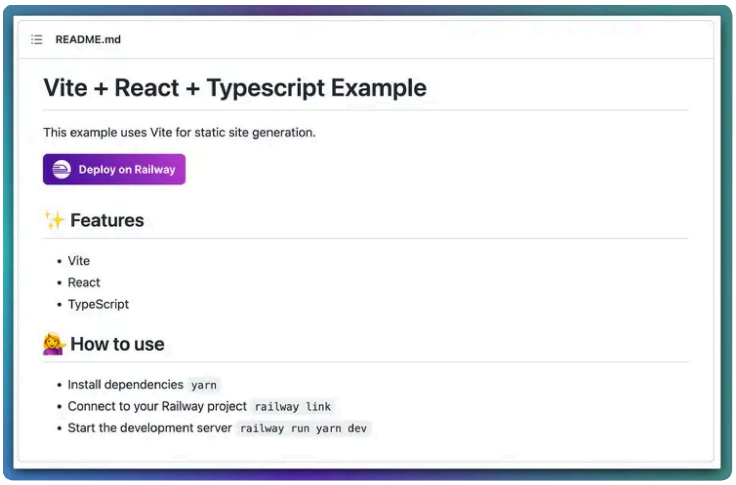
Optionally, you can add a demo project to your template. This will be used to showcase your template in a working project, and can be accessed by clicking on the `Live Demo` button in the template's overview page.

Sharing your Templates

After you create your template, you may want to share your work with the public and let others clone your project. You are provided with the Template URL where your template can be found and deployed.

Deploy on Railway Button

To complement your template, we also provide a `Deploy on Railway` button which you can include in your README or embed it into a website.



Deploy on Railway

The button is located at https://railway.com/button.svg.

Markdown

To render the button in Markdown, copy the following code and replace the template code with your desired template. If you'd like to help us attribute traffic to your template, replace `utm_campaign=generic` in the URL with your template name.

```
[![Deploy on Railway](https://railway.com/button.svg)](https://railway.com/n
```

HTML

To render the button in HTML, copy the following code and replace the template code with your desired template. If you'd like to help us attribute traffic to your template, replace `utm_campaign=generic` in the URL with your template name.

```
<a
  href="https://railway.com/new/template/ZweBXA?utm_medium=integration&utm_s
  ><img src="https://railway.com/button.svg" alt="Deploy on Railway"
/></a>
```

Examples

Here are some example templates from the template marketplace in button form:

Icon	Template	Button
	Node	Deploy on Railway
	Deno	Deploy on Railway
	Bun	Deploy on Railway
	Gin	Deploy on Railway
	Flask	Deploy on Railway

Kickback Program

If your published template is deployed into other users' projects, you are eligible for kickbacks based on your support engagement. Learn more about the kickback program.

Template Verification

Templates are verified when the creator and maintainer of the technology becomes a partner and reviews the template.

If you are or have a relationship with the creator, please reach out to us by submitting the form on our partners page.
